Small Business websites

Do you have a small business and have thought about an internet web site to advertise that business but found that they are too expensive?

Contact Les at Maleny Paint Place to discuss your needs. Simple web sites do not have to be expensive.

Hosting and domain registration can also be arranged at a very reasonable price.

Winter is over - brighten your home simply.....

Have a quick look at the ceiling of your home. What does it look like to you?

Is it a bit tired and need a bit of a brightening up? Well, you might not feel like giving the complete inside of your home a new coat of paint, but you can make a bit of a difference simply by giving your ceiling a new coat of paint.

Is the present ceiling coat in reasonable condition but could do with freshening up? If the paint is not peeling then it is simple to give the ceiling a good clean to remove any grime.

Give it a clean with some bleach to kill any mould spores in the substrait. When it has properly dried simply give the ceiling a coat of ceiling white to give a fresh clean look. As the surface has been painted before there is no need to undercoat the area, unless you are covering a dark colour.

Sometimes in old buildings the ceiling may be coated with the remains of smoke from open fires or wood burning stoves. In this case it is a good idea to give it a coat of BIN primer sealer so that any top coat has maximum adhesion for the top coat of paint.

Everything you need to complete this job is available at Maleny Paint Place.

For the month of September Paint Place Maleny is offering 6 litres of prime quality ceiling white by Watty1 Paint for the special price of \$49.95. This offer is limited to stock on hand at this price.
